Child Sponsorship

A way of continuing our Children's Peace Project

Do our contributions help the very poor?

At this critical juncture for the Christian school systems in the Holy Land, many families are finding that they cannot afford to make either all or partial tuition payments; they are having difficulty **paying for subsistence level food**. Here in the United States, a student who could not pay his or her tuition might be asked to leave a school. This is not the case with Christian schools in the Holy Land. The Christian leadership **understands the extreme deprivation that these families face** and is attempting **to function without the tuition** that schools customarily collect. As a result, your contributions go to support the school so that poor families do not have to be turned away. It is **humiliating for a family** to admit to such a condition.

Other ways we can help:

- Continue to keep the families in your prayers.
- Write to them
- Encourage others to sponsor a child in Ms. Suhair's school in Taybeh, Palestine.

(Any questions please Call Sister Marietta, 728-4941.)

Please remember this about these Christians, who are in a desperate struggle to survive:

- They live in an occupied land.
- They are not free to come and go as we are.
- They do not have jobs (60%-70%)
- Christians are only 2%.
- Pope John Paul asked the Palestin-

ian Christians to remain in the Holy Land.

- Finding **food** for their **families major problem**.

This is a twinning/partnership for Assumption Parish with the children in Ms. Suhair's school.

Sister Marietta, DRE
